Subject: - Suggestions Received during Feedback regarding updation/upgradation of Course Curriculum (Session 2021-22)

Sir,

As per the feedback collected from the teachers, students, Alumni, the following suggestions have been received by the IQAC

Suggestions from the Teachers

Arts Faculty

1. Syllabus of ENG CE 101 and 102 should be more detailed and more topics from Literature and grammar should be included.
2. The curriculum designed for the undergraduate classes is not appropriate & not that effective as it does not serve the purpose of beginners, who start their journey in the subject from very beginning
3. महाविद्यालय में संगीत (वादन) के विद्यार्थियों ने इस विषय को +2 स्तर पर पढ़ा ही नहीं होता। इसलिए शिक्षक को बुनियादी ज्ञान यानि वादन तकनीकों से वादन की शिक्षा आरम्भ करनी पड़ती है। जबकि पाठ्यक्रम उच्चतर शिक्षा का होता है तथा क्रियात्मक पक्ष के लिए समय कम होता है। इसलिए क्रियात्मक पक्ष में आने वाली कठिनाईयों को ध्यान में रखकर पाठ्यक्रम तैयार करना चाहिए।
4. The syllabi of BA first year needs improvement, both in physical geography and general cartography.

Science Faculty

1. Some important courses like solid state, nuclear, quantum mechanics has been kept as optional though they are very important courses for post-graduation as well as entrance exams. So, at present pass out students lack required knowledge of the subject
2. Choices given in opting various courses in final year results in missing very important topics in Chemistry. It should not be choice based.
3. Type study of at least one organism/animal in each phylum of non-chordates and each class of chordates is required in addition to general characters.
4. Practical course should be improved, there should be only single practical of 50 marks for both courses. More credit should be given for practicals in science subjects (only 20 marks are allotted at present),

5. Syllabus of BSC first year is very large as compared to other classes
6. Field work, visit to industries, project works, should be given due credit
7. Delay in the declaration of results create a lot of trouble for the students. Results should be declared timely.

Commerce Faculty

1. New accounting software must be included
2. Syllabus should be prepared as per present industrial demand. Infrastructure facilities for technology advancement in the college should be increased. Further government should increase the post of teachers in computer application so that the students can take practical knowledge of software such as word Excel and tally instead of bookish knowledge only.
3. In theory subjects some practical assignments such as case study relating to subjects should be added and it should be compulsory for the students.

B.B.A, B.C.A. & P.G.D.C.A Faculty

1. New programming languages must be added in the syllabus
2. More practical subjects should be added to increase managerial skills among students
3. Syllabus should be updated according to the present advancement and technology
4. Modification in syllabus is required. Syllabus should according to the present need or requirements of industry. Subjects like labour laws, digital marketing, content creating should be introduced in BBA.

B.Voc. faculty

1. Syllabus is only based on the big format of retail store (MBO) Must add about EBOs and day to day retail operations.

Suggestions from the Students

BCA Students

- The syllabus should be updated regularly
- The distribution of contact hours among the course components i.e Lecture, Tutorial and practical needs improvement
- Please include some industrial trips for students to understand or experience their work
- BCA syllabus is old. Update syllabus of BCA according to latest technology.

IQAC, GOVT. P. G. COLLEGE UNA

District Una HP-174303

www.govtcollegeuna.in | gcuna-hp@nic.in | gpgcuna68@gmail.com | 01975-226035

BBA Students

- More Skill development courses should be included
- Please include some extra activities which help in building skills rather than only bookish knowledge which is also outdated. (Need for updating the syllabi)

B. Com Students

- More practical courses must be included in curriculum.

B.Sc. Students

- Try to conduct more activities which help to improve the skills or confidence of the students like educational trip, industrial visits etc.
- The course curriculum should be more practical oriented.
- Soft skills related courses should also be included
- Syllabus is not well balanced
- Skill development courses should be more as they are beneficial for our future
- The curriculum should also involve the latest changes that occur around the world with regard to the topics of study.

BA Students

- Books regarding syllabus should be appropriate. Syllabus covered in books is not appropriate and not useful.

It is for your kind information and further necessary action at your end please.

Subject: - Submission of Suggestions regarding improvement of the college received from teachers during general feedback and the Student Satisfaction Survey (Session 2021-22)

Sir,

As per the feedback collected from the teachers, the following suggestions have been received by the IQAC

Suggestions for the improvement

- Teacher taught ratio and infrastructure are the two area that should be worked upon.
- One interdisciplinary workshop or a small project report for each teacher must be introduced and that should be given due credit in API of teacher and
- Tradition of morning prayer (prayer Hall) at the beginning of college time table must be started (even if it is a 2-3 minutes chanting of prayer hymns on an audio player in the campus, it will reverberate the atmosphere with a divine bliss)
- Evaluation: more credit for practicals in science subjects (only 20 marks are allotted at present),
- The minimum number of hours spent in college must be strictly enforced. Each employee must be held accountable.
- It is critical to instill professionalism in office staff, teachers, and lab staff.
- To avoid joint responsibility, college staff may be given specific assignments through sub committees in a committee so that each of the members in the committee may be held accountable.
- Undisciplined students should face severe disciplinary action.
- Library automation and digitalization, including digital security gates, RFID tagging of books, and digital issue and receipt of books, are urgently needed.
- House exams/midterm exams could be handled more professionally and centralized manner. Internal assessment should be given in a fair and impartial manner.
- Individual rooms can be allotted subject wise so that the rooms can be managed and decorated according to needs, sitting arrangement for teachers can be made separately so that they can study and do research, library needs more journal subscriptions and needs to be automated
- Reading area of Library needs to be expanded along with the facilities of E-journal, e-books, e-magazine etc.
- Each department should have proper facilities like proper seating area, computer, printer etc
- Sometimes sunlight is reflected and falls on black board, after that written content in 50% area of board is not visible, Curtains can be used to rule out this problem.
- There is lots of garbage in the college, it must be cleaned daily.
- The condition of some class rooms, toilets is very bad. Timely cleanliness is required

It is for your kind information and further necessary action at your end please.
