To

The Principal,

Govt. P.G. College Una

Subject: - Suggestions Received during Feedback regarding updation/upgradation of Course Curriculum (Session 2022-23)

Sir,

As per the feedback collected from the teachers, students, Alumni, the following suggestions have been received by the IQAC

## **Suggestions from the Teachers**

**Detailed survey Report: ( <https://www.govtpgcollegeuna.in/feedback-reports/#tab-56872>)**

### **Suggestions from Science Faculty**

1. Syllabus related to new advancement in the respective field must be modified.
2. Syllabus should be again analyzed.
3. Education quality can be improved only after adopting proper evaluation system and proper curriculum design as per requirement
4. Most updated and well renowned teachers of the subjected should be member of board of study.
5. SEC courses may be revised to make them more relevant and useful.
6. The options available in DEC courses skew the subject. Quantum mechanics, solid state physics, and nuclear physics should be essential rather than optional.
7. Technical subject's syllabus needs to be updated frequently as per the need of industry and academia.
8. Theory & practical components especially in B. Sc 1st year are imbalanced.
9. Syllabus needs to be revised few courses
10. . Syllabus needs to be updated specially SEC and practical part marks should be increased.
11. More emphasis should be given to practical course.
12. Practical based course must be there.
13. There should be more syllabus for practical.
14. Practical Part should be given more weightage. The syllabus should be updated from time to time.

### **Suggestions from Arts Faculty**

1. Job oriented and Industry demand-based curriculum.
2. Syllabus should be market oriented.
3. The teachers of all colleges should be consulted before making any changes in subject curriculum
4. The curriculum designed is not appropriate and need a lot of changes, specially keeping the need

of today's challenges. Classical music and its implication in practical world of music market is needs a lot to change. So present curriculum is not catering the present day demands of students. Focus is required to be given to the demand music industry. Our curriculum is producing music teachers only, no professional musicians are coming from our educational institutions, reason behind is our curriculum. Professional musicians need to conduct workshops to apprise our students and teachers regarding the need of modern times.

5. Technical assistance is required

6. The curriculum should be well organized and change time to time according to the need. Practical and theoretical syllabus should be well organized. There is repetition of some questions in the syllabus. Such kind of things should be avoided.

7. There must be some contents and small projects that motivate students for self-learning and creative things. viii. It should be updated regularly.

### **Suggestions from Commerce Faculty**

1. Students -teachers' ratio should be maintained to give quality education in the college
2. Industrial or corporate visit for overall development and others.
3. There must be some topics and small projects in the course curriculum that motivate students for self-learning and creative thinking.

### **Other suggestions for overall improvement of the college (Including Academics, Library, Infrastructure, Evaluation or any other):**

1. E -library facility must
2. Provide proper media lab and equipment for students, College library automation and books issued returns all working days for students. Library open timings 9.30 to 4.30. Student's biometric/RFID attendance. 75 percents attendance compulsory for House and University exams.
3. There should be proper teacher: students ration and proper systematic evaluation system. Exams should be fair for actual evaluation of the students.
4. Online library facility should be started. Equal attention must be given to all faculties especially arts. There should not be biased approach towards arts subjects.
5. More Books and ICT tools might be provided at a satisfactory level.
6. Students teacher ratio should be improved increased the teaching post in commerce department.
7. College is an institution where we have face to face interaction with student and have personal touch with students. Opting hybrid mode will be good for syllabus but overall development of students can be done only by offline teaching.
8. SEATING Capacity of library should be enhanced.
9. Steps should be taken for mental health of students and career counselling sessions should be enhanced.
10. More comfortable working space for staff is required.
11. Students admission to science stream should be on merit

12. Due to extra activities, teaching is suffering.
13. New computer lab with modern infrastructure needs in computer science dept with at least 60 desktop systems and maximum 100 systems
14. Internal assessment marks should be decreased
15. Sitting area of library needs to be expanded, two teachers are required in the department of political science for smooth functioning of ug as well as PG courses, more competitive magazines and academic journals are required.
16. Two more teachers are required for smooth functioning/teaching zoology subject.
17. The college infrastructure should be well maintained. Hybrid mode of classes for online is very unfair, especially for the practical subjects. The classes should be taking only on offline mode. I think students will learn more in the class room, in the presence of Teacher. Evaluation should be offline. IA method should be stopped for theoretical subjects.
18. Evaluation process should be External
19. Separate Reading Room for teachers in library and Separate sitting room for teachers in college canteen must be there.
20. Separate departmental rooms for the faculty should be provided and library area should be increased.
21. More appropriate labs should be there
22. Water Coolers installed in the student's toilet blocks required to be shifted to some hygienic place.
23. The best mode of teaching is offline. It benefits both the teacher as well as the student. The student teacher ratio should be maintained for best outcomes.
24. One study room should be provided for students in every department.
25. There should be indoor stadium for college students and also auditorium to motivate the students for cultural activities.
26. Improvement in Infrastructure, cleanliness
27. Teachers must be equipped with all latest technology in the field of education.
28. All above suggestions are good.
29. Digitalization of library is must. Students should be motivated to register for NLIST. There is need of maintenance of proper cleanliness in the classrooms. The smart classroom in which touch panels have been installed there must be a provision of online UPS. In some class rooms due to reflection of sunlight visibility on black boards is poor. Curtains must be fixed on windows of such classrooms.
30. Classrooms should be arrange for every for every course/subject.
31. Dustbins should be placed at different locations in college campus and inside buildings. Proper signage for departments and rooms.

32. Shortage of classrooms
33. Improvement of Computer Lab is needed
34. Provide the proper classroom for class.
35. Washroom requirement
36. Improvement of infrastructure
37. More research opportunities should be provided to the faculty members.
38. Teacher taught ratio need to be balanced.
39. Adoption of more advanced teaching techniques.

It is for your kind information and further necessary action at your end please.
